Hello! Let me introduce myself. My name is Winda Ardyani, and I am an undergraduate student at the University of Malang with a major in Computational Mathematics. I am currently a final-year student with hands-on experience in UI/UX Design through campus internship programs, and I have developed a strong passion for Front-End Development. I have deepened my expertise in UI/UX Design and web development.

I chose Computational Mathematics as my specialization because I wanted to enhance my analytical and problem-solving skills while exploring my interests in technology and design. Through this path, I aim to continue growing both personally and professionally in the field of technology, design, and computational science.

EDUCATION

STATE UNIVERSITY OF MALANG

SARJANA MATEMATIKA

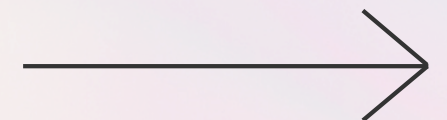

2022 – 2026

SENIOR HIGH SCHOOL 1 TUREN

MATEMATIKA DAN ILMU PENGETAHUAN ALAM

2019 – 2022

ORGANIZATIONAL AND COMMITTEE EXPERIENCE

1

2

3

4

5

Komite Olahraga FMIPA (KOMIPA)

- **Public Relations (STAFF 1)** in Dance and Traditional Performance Division.
- **Secretariat Division Coordinator** in the MIPA FUTSAL COMPETITION (MFC).
- **Dance Coordinator** Dance and Traditional Performance Division in the DEKAN FMIPA CUP (DFC).
- **Judges** Dance and Traditional Division in the KOMIPA CUP (KC).

OTHER EXPERIENCE

1

- Seminar Participation by Phincon Academy

2

- UI/UX Design Intern at Jobnation ID

3

- Concentration of Mathematics (COMATH)

4

- UI/UX Design Intern at Jobnation ID

5

PERSONAL

Skill

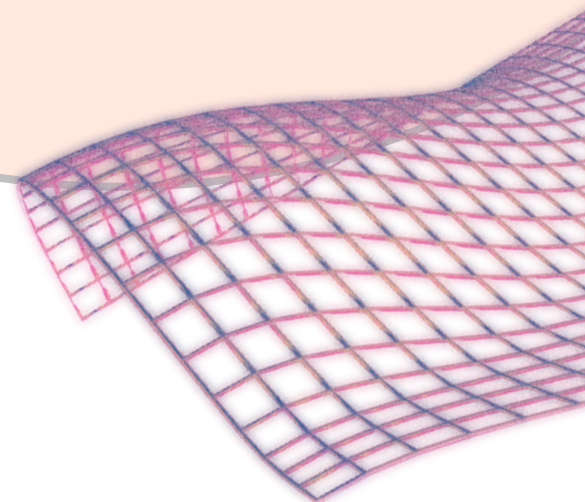

TOOLS

SOFT SKILL

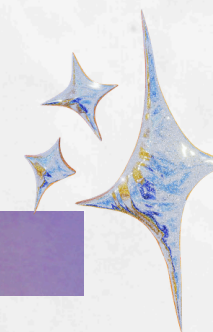

- PROBLEM SOLVING
- TIME MANAGE
- PUBLIC SPEAKING
- INDONESIAN LANGUAGE (NATIVE)
- ENGLISH LANGUAGE (BEGINNER)
- GERMAN LANGUAGE (BEGINNER)
- RESPONSIBLE
- CAN ADAPT TO NEW ENVIRONMENTS

PORTFOLIO

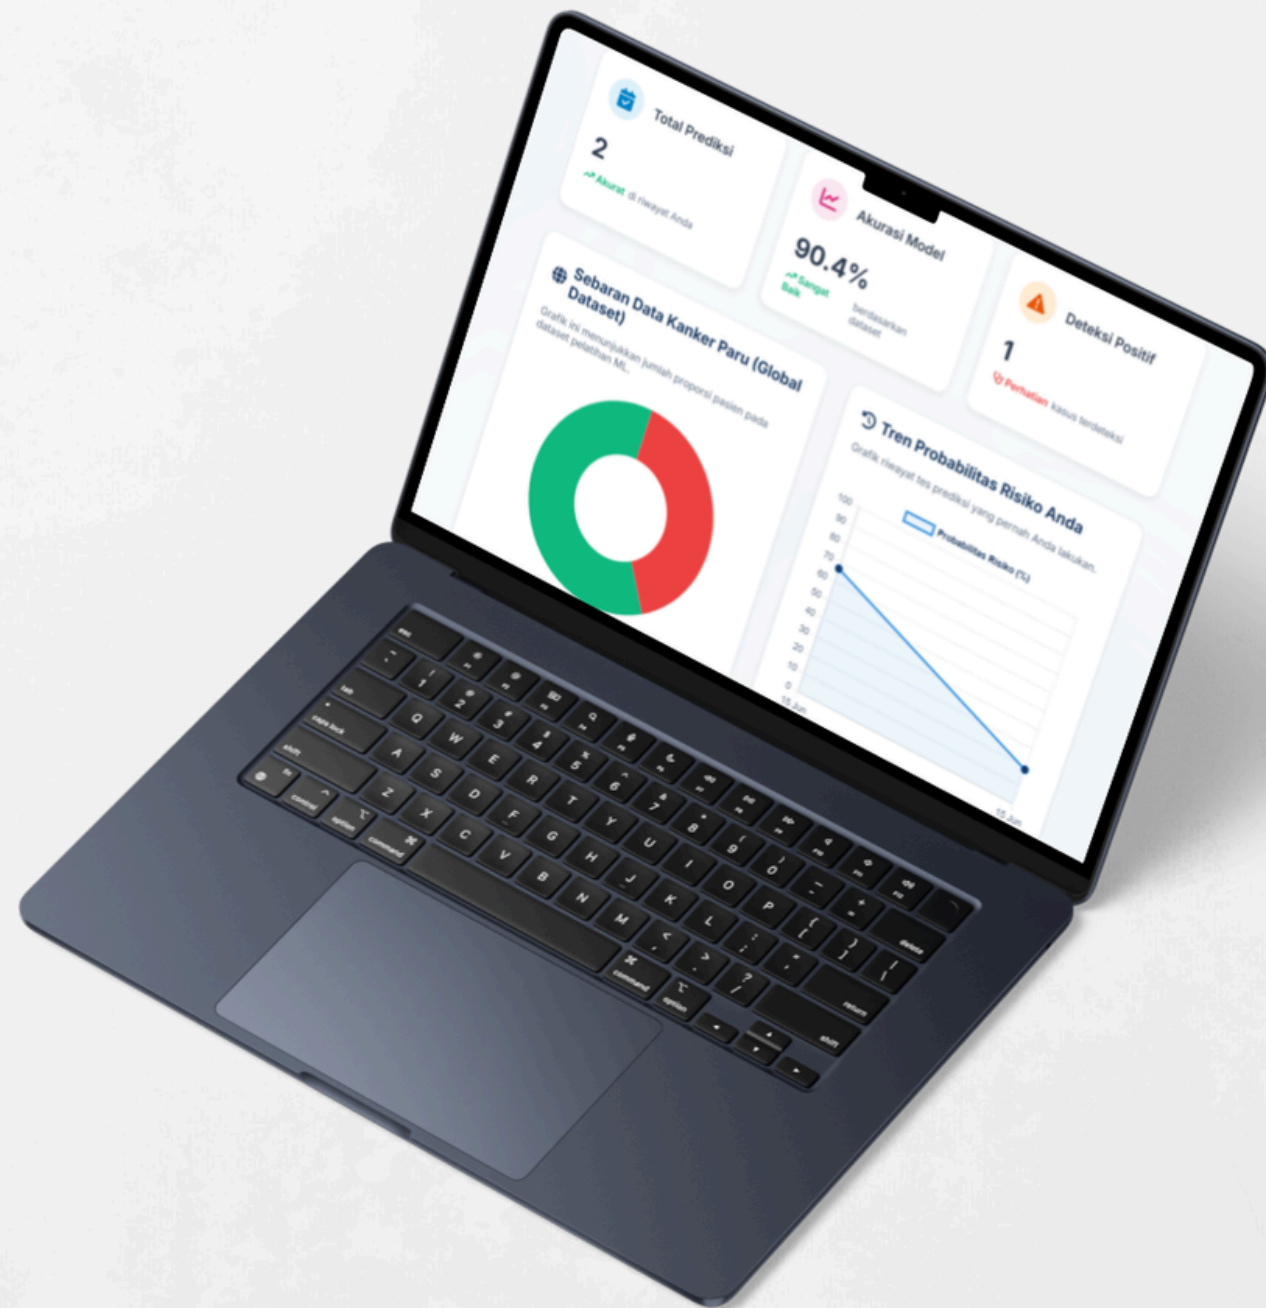

Project

...

PROJECT 1

LUNG PREDICT WEBSITE – THESIS

Developed LungPredict, a web-based lung cancer risk prediction system (89.2% accuracy, 0.92 AUC) as my undergraduate thesis from EDA and statistical feature selection (Chi-Square, Pearson correlation) through XGBoost model tuning and deployment, following CRISP-DM methodology to turn raw clinical data into an actionable screening tool.

PROJECT 2

MOBILE TICKET

The Design :

Designed a movie ticket booking app prototype in Figma (menu, seat selection, and barcode scanning pages). Simplifying the ticket purchase and verification process for users.

PROJECT 3

LINGO TALES

ROLE/POSITION:
PROTOTYPE AND INTERACTION DESIGNER

This was a group project. I was primarily responsible for creating the prototype and refining design details, which helped ensure consistency and usability across the app's interface, contributing to a more polished final product for Lingo Tales.

Lingo Tales is a mobile app designed to make learning English fun and engaging through gamified lessons, interactive stories, and progress tracking

... PROJECT 4

KARAOKE APP

ROLE/POSITION:

PROTOTYPE AND INTERACTION DESIGNER

Designed prototype and button interaction details for a client-requested karaoke app as part of a group project, ensuring a clean and functional interface ready for development handoff.

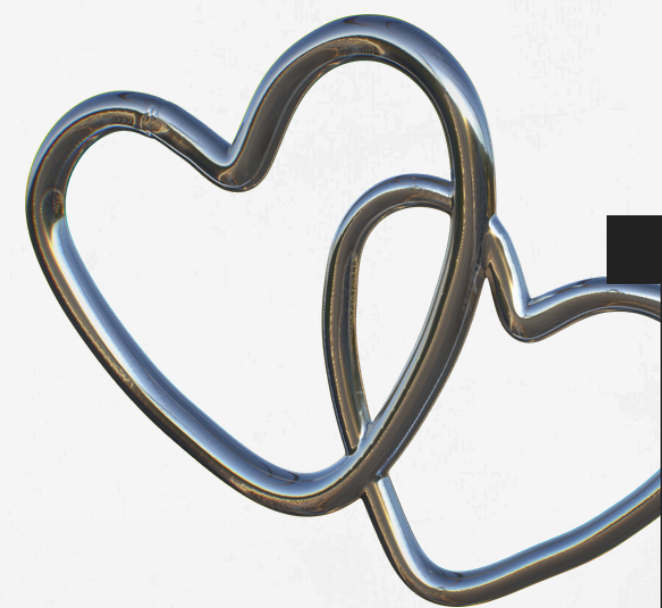

PROJECT 5

COMPANY PROFILE

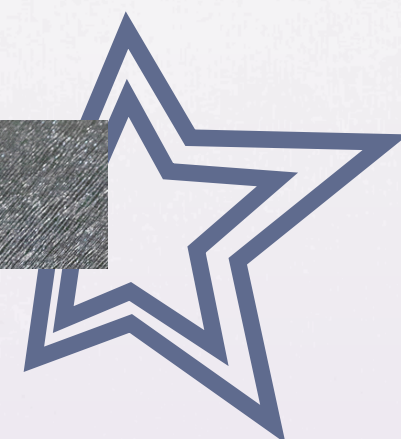

Independently designed the UI/UX for Khakha Haris' company profile website as a freelance designer, handling the entire process from wireframing to final visual design, resulting in a clean and professional online presence that strengthens the company's brand image

THE DESIGN :

THANKS FOR YOUR ATTENTION
